HAITI / HONDURAS ESSENTIAL OIL UPDATE
JULY – 2013

HAITI

Click the following headlines/links to read the articles.

- Genomes Of Cholera Bacteria From Haiti Confirm Epidemic Originated From Single Source (July 02)
- Tropical Storm Chantal: Caribbean Prepares As Storm Nears (July 08)
- UN Allocates Extra $1.5Million For Cholera Response In Haiti (July 19)
- Haiti Cholera Epidemic Caused By UN, Say Experts (July 25)

VETYVER OIL: The usual summer business doldrums did not seriously affect sales, which were slow but steady. Production continued at a slower pace due to the spring rains that rendered digging for Vetyver roots impossible at times. The cost price had an upward tendency due to the higher cost for the raw material – continually increasing prices for bunker "C" fuel for the boilers, fuel for trucks and vehicles – as well as increased labor costs, repair and maintenance costs, etc. Unsold inventories are modest. We have stock and invite your inquiries.

AMYRIS OIL: The situation is virtually unchanged. Sales and production are steady and continuous. Prices, though firm, are steady with a firmer tendency. We have stock and invite your inquiries.

Our oils are all natural, pure – as distilled – NOT assembled/manipulated/adjusted.

HONDURAS

CARDAMOM OIL: We are producing as we receive orders. There is no stock for immediate deliveries. For this oil, we solicit your inquiries.

STYRAX GUM AND OIL: Volume of sales has been moderate, prices are steady and on the low side. Inventories of the crude gum are sufficient to produce Purified Gum as well as Oil 645P to meet demand. Your inquiries for both the Purified Gum and the Oil are invited.

We look forward to hearing from you.
