VETYVER OIL: The rainy season was under way in late September/October. Production is, and will continue to be, frequently interrupted due to the impossibility of collecting roots when the soil is too wet. The market is steady to firm, with export demand continuing at a regular rate. Inventories in the hands of non-exporting distillers were modest during October. We have stock and invite your inquiries.

AMYRIS OIL: Export demand continued strong during October. Supply is keeping up with demand, thereby not allowing any accumulation of inventories. Costs of production remain high, with tendencies of firmer prices. We have stock and invite your inquiries.

Our oils are all natural, pure – as distilled – NOT assembled/manipulated/adjusted.

HONDURAS

CARDAMOM OIL: The season is coming to an end for this year. For this oil, we solicit your inquiries.

STYRAX GUM AND OIL: Demand and sales have been calm. Prices are at a low level. The Oil is produced as needed by customers. Your inquiries for both the Purified Gum and the Oil are invited.

We look forward to hearing from you.
